THE ABORTION ATROCITY

Ten Bible Truths That
Settle the Debate

INTRODUCTION

Abortion is a hot-button topic. It is one of the most divisive subjects in public discourse today. When the issue of abortion comes up, many people stop thinking. They disengage their brains, allow emotions to take over, and start accusations or name calling. Even among professed Christians, the topic of abortion is contentious.

Abortion is a subject that demands emotion. It is a very passionate topic with good reason. Either doctors are

murdering helpless babies or activists are infringing upon women's rights because of a "tissue mass." We must know the truth on this vital topic.

How can people be so far apart on such an important issue? I can think of many reasons, but I place much of the blame on American pulpits. While some faithful men of God in the past spoke the truth about the tragedy of abortion, the majority of religious leaders wilted in the face of worldly opposition. Preachers who are tickling the ears of congregants to keep them happy will not touch the subject of abortion with a ten-foot pole. Sin always abounds when pulpits get quiet and preachers are silent.

In this book, I would like to present a reasoned argument that

abortion is terribly wrong. Please keep an open mind and read all the way through. The Bible teaches that abortion is a sin. In fact, I believe I can prove with logic and statistics that abortion is one of the world's greatest atrocities. In this book, I am not going to give you sad stories or impassioned emotional pleas. On the contrary, the foundation of my conclusion is the only information that can settle such a heated debate—THE WORD OF GOD.

Perhaps one questions, “What about those who do not believe the Bible?” Unbelievers may reject the Bible, but it is quick and powerful regardless of their personal beliefs. They still need to hear what God says. Almighty God has the power to

open eyes and enlighten minds. God's Word changes lives.

Even though there is so much confusion on the topic of abortion in the world, there should be no division among believers. God's Word is our final Authority for faith and practice. The Bible should settle the matter of abortion for all who claim the name of Christ. I am concerned about our "pro-choice" Christian friends. Allow me to lay out a case for those who believe the Bible but have listened to the political talking points without ever honestly considering what the Word of God has to say about the subject.

May the Holy Spirit guide us into the truth of this vital subject! It is literally a matter of life and death.
